

Autostart

VERSION 1.4

The Tracker automatically tracks new issues by opening the issue or clicking on an agile card, if Autostart is activated.

If you switch back to a former issue, the Tracker adds time to the existing time log for that issue.

VERSION 1.2

The Tracker automatically tracks new issues by opening the issue or clicking on an agile card, if Autostart is activated.

If you switch back to a former issue, the Tracker adds time to the existing time log for that issue.
