

ESU 3.2.5

Detail View

Edit Fields

The support for custom fields in the detail view has been extended, the following custom type fields can now be edited:

- Text Field (Single Line)
- Text Field (Multi Line)

The screenshot shows a Jira issue detail view for 'Completed Issues - Epic01'. The table below is visible:

Summary	Key
▼ Epic01	TEST2-2
■ Story01	TEST2-1

An inline editor for a 'Mult Line Text' field is open, displaying a text area with placeholder text: 'Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ips'. The editor includes a checkmark and an 'X' button for confirmation.

The screenshot shows the same Jira issue detail view. An inline editor for a 'Single Line Text' field is open, displaying a text input field with placeholder text: 'Lorem ipsum dolor sit amet, consetetur sadipsc'. The editor includes a checkmark and an 'X' button for confirmation.

Common Updates / Fixes

Configuration

- Removing of display problems
- Improved usability of Global Settings dialogue

Container

- The "Issues in Container" section is only displayed for container issues-types
- Improved the performance for the "Container Link" custom field

Detail View

- Inline Edit usability improved
- Empty fields (such as Version or Sprint) can be edited
- Due to the Jira compatibility the Action Menu is only available with Jira 7.1 and above

- When a issue is collapsed in the Detail View the sum of the hidden issues is displayed
- Insert loading animation

Timesheet

- Total Hours calculation fixed (considers more than 20 worklogs)
- Sorting usability improved

Summary Panel

- The Jira Default Timetracking Panel will be displayed or hidden correctly
