

How to add the (Epic Sum Up) Filter Results gadget to a Jira Dashboard

Atlassian Assistance

[Adding the Filter Results gadget](#)

Filter Result Grid Gadget

As of Epic Sum Up v 3.9 there is a new gadget available.

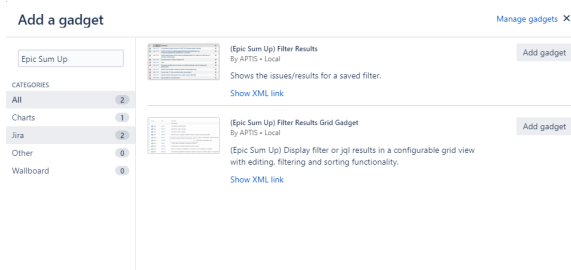

This new Gadget enables inline editing of values directly from the dashboard.

This guide shows how to add the (Epic Sum Up) Filter Results Grid Gadget to a Jira Dashboard

Issue	Key	Summary	Assignee	(Epic Sum Up) ...
<input type="checkbox"/> KTB-1 Container	KTB-1	Container	Unassigned	12.75h / 7.17h
<input type="checkbox"/> KTB-2 Epic	KTB-2	Epic	Unassigned	4.75h / 5.17h
<input checked="" type="checkbox"/> KTB-3 Task	KTB-3	Task	Unassigned	1.75h / 1.5h
<input checked="" type="checkbox"/> KTB-4 Task 2	KTB-4	Task 2	Unassigned	1h / 0.67h
<input type="checkbox"/> KTB-5 Story	KTB-5	Story	Unassigned	2h / 2h
<input type="checkbox"/> KTB-6 Epic 2	KTB-6	Epic 2	Unassigned	5h / 5h
<input type="checkbox"/> KTB-7 Story	KTB-7	Story	Unassigned	0h / 0h

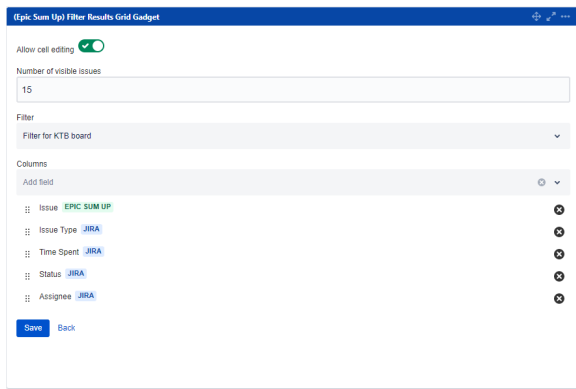

Add the (Epic Sum Up) Filter Results gadget

1. Navigate to the "Dashboards" section
2. Choose a Dashboard that should display the Filter Results gadget
3. Click on the "Add gadget" button on the top right
4. Look for "(Epic Sum Up) Filter Results" and click on "Add gadget"

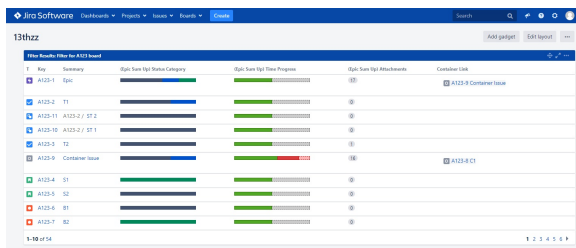

Configure the (Epic Sum Up) Filter Results Grid Gadget

1. After adding the gadget the configure screen is opened automatically (if it is not opened, click on the three dots at the top right and choose "Edit" in the dropdown)
2. Choose a "Saved Filter", to define which issues should be displayed
3. Type in a number, to define how many issues are displayed on one page
4. Configure the columns that are displayed in the Filter Results gadget
5. Click on the "Save" button at the end of the configure screen
