

How to use the Detail View

Open the Detail View

1. Navigate to an issue or any place in Jira, where a Epic Sum Up progress bars is displayed
2. Click on a progress bar

Issue	Status	Time	Original Est.	Remaining Est.	Time Spent
Summed Values		<div style="width: 100%;"></div>	10.75h	5.5h	6.57h
KTB-1 Container	BACKLOG	<div style="width: 100%;"></div>	1h	0.5h	0.42h
KTB-2 Epic	BACKLOG	<div style="width: 100%;"></div>	0.5h	0h	0.42h
KTB-3 Task	IN PROGRESS	<div style="width: 100%;"></div>	5h	4.5h	0.57h
KTB-3 Sub Task	DONE	<div style="width: 100%;"></div>	0.75h	0.5h	0.67h
KTB-6 Bug	DONE	<div style="width: 100%;"></div>	2h	0h	3h
KTB-9 Task	DONE	<div style="width: 100%;"></div>	1.5h	0h	1.5h
KTB-4 task	BACKLOG	<div style="width: 100%;"></div>	0h	0h	0h

Display summed up values in the Detail View

The total sum is always displayed in the summary line at the top.

To display the summed up amounts of certain levels, the structure needs to be collapsed.

1. Manually collapse issues, by clicking on the triangle next to the issue icon to see the summed amount for the underlying issues
2. Click on the "Expand/Collapse" button  on the top left of the Detail View to choose the level to be displayed or directly collapse or expand all issues.

Issue	Status	Time	Original Est.	Remaining Est.	Time Spent
Summed Values		<div style="width: 100%;"></div>	10.75h	5.5h	6.57h
KTB-1 Container	BACKLOG	<div style="width: 100%;"></div>	1h	0.5h	0.42h
KTB-2 Epic	BACKLOG	<div style="width: 100%;"></div>	0.5h	0h	0.42h
KTB-3 Task	IN PROGRESS	<div style="width: 100%;"></div>	5.75h	5h	1.23h
KTB-3 Sub Task	DONE	<div style="width: 100%;"></div>	0.75h	0.5h	0.67h
KTB-6 Bug	DONE	<div style="width: 100%;"></div>	2h	0h	3h
KTB-9 Task	DONE	<div style="width: 100%;"></div>	1.5h	0h	1.5h
KTB-4 task	BACKLOG	<div style="width: 100%;"></div>	0h	0h	0h

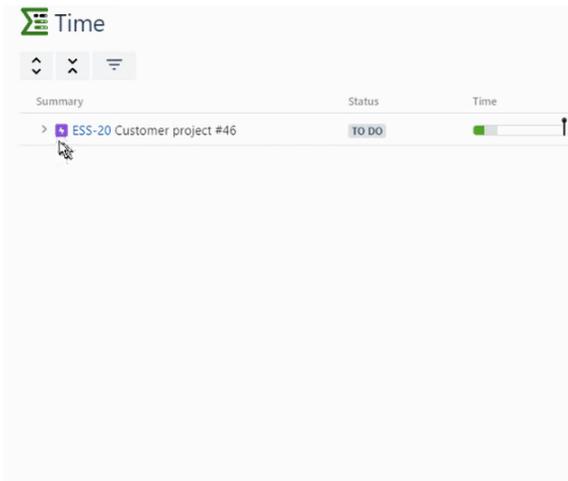

Filter the Detail View

You can filter the issues displayed in the Detail View by using the filter option in the top left corner of the detail view.

When selected, only issues that match the corresponding filter will be shown.

Right now you can filter by:

- completed issues
- not completed issues
- issues over original estimation
- closed issues with remaining time assigned to them

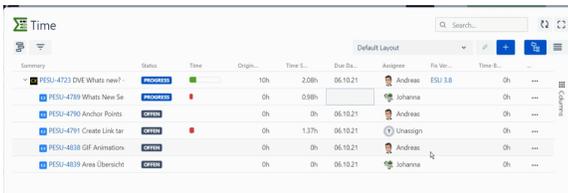

Edit, copy and paste values in the Detail View

 The structure needs to be extended to enable inline editing.

You can easily edit values within the Detail View. Double click on a value for any of the issues, enter the new value and confirm by clicking the checkmark.

Furthermore you can choose multiple values by clicking and dragging the mouse. That way you are able to copy and export a chosen number of values to an external tool (e.g. Excel). To do so you can right click the chosen area and choose "copy" or use the corresponding keyboard shortcut.

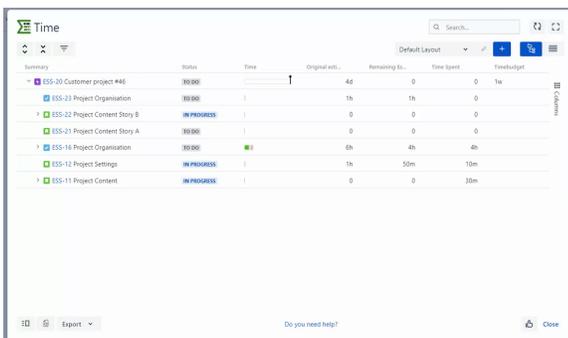

Furthermore you are able to (re)import values from such a tool to edit multiple values at once by right clicking and choosing "paste" or using a keyboard shortcut.

Add or remove columns in the Detail View

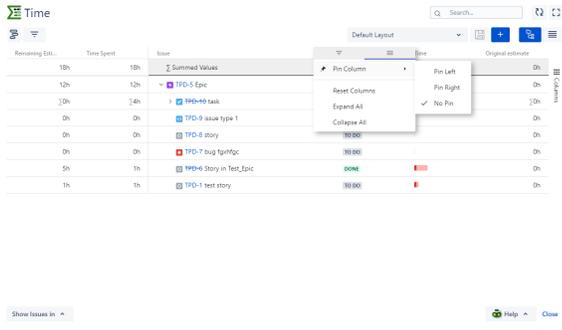

You can add most (custom) fields to the Detail View by opening the columns option on the right.

Here you can search for fields that you want to have displayed in the Detail View. To add or remove the field, simply check or uncheck the option.

Pin Columns

You can pin columns to the left, right or both to have them always visible even when scrolling multiple columns. This enables you an easy comparison or easier access to values. You can do so by clicking the hamburger menu on any column and choose the *Pin Column* option.

Search Box

The Search box allows you to type any value and let the DVE filter for you. It will search almost every text based field to find the given term.
